

My name is Amber Tanner and I am an EA in the Kindergarten Tues/Thurs Class. I love my job because I get the opportunity to help the little children learn and grow. We get to try new things every day and explore new ideas and thoughts. I truly feel it to be a privilege to work with your children. All three of my children have or are attending this school and I see the love and support they have received over the years attending this school.

In my personal life I love to be with family. I love music, bike riding, digital scrapbooking and volunteering through my church.
